**SUPPLEMENTARY INFORMATION:**

I. Background

In the *Federal Register* of October 19, 2020 (85 FR 66335), we published a notice requesting information and comments entitled “Sugars that Are Metabolized Differently Than Traditional Sugars.” This action opened a docket with a 60-day comment period to receive information and comments related to the nutrition labeling of sugars that are metabolized differently than traditional sugars.

FDA has received a request for a 60-day extension for this comment period in order to allow additional time for interested persons to develop and submit data, information, and/or comments for this notice. We have concluded that it is reasonable to extend the comment period for 60 days. FDA believes that this extension allows adequate time for any interested persons to submit data, information, and/or comments.

Dated: December 11, 2020.
